

FULL-STACK DEVELOPER

Nicky Jarvis

PROFILE

A results-driven professional transitioning from healthcare to full-stack development, applying strong leadership, problem-solving and collaboration skills. Experienced in developing user-focused solutions with attention to detail, adaptability and resilience.

EXPERIENCE

FULL-STACK DEVELOPER COURSE - 2025

Currently completing a Full-Stack Developer course. Building user-focused web applications, applying problem-solving and collaboration skills. Ongoing portfolio showcasing projects, can be viewed on my website, linked below.

RSCN - THORNBURY NURSING SERVICES, BRISTOL - 2019 - PRESENT

Managed high-pressure situations providing care for ventilated children, demonstrating rapid problem-solving and strong decision-making. Adapted to evolving needs and worked effectively with families. Developed time-management skills and maintained high standards under pressure.

RSCN - JUNIOR SISTER, COMPLEX CARE, BWCHFT* - 2018 - 2019

Led my team by coordinating complex care plans. Enhanced team collaboration, communication, and streamlined processes to deliver high quality care in dynamic environments. Developed leadership and project management skills.

RESEARCH NURSE/JUNIOR RESEARCH SISTER, BWCHFT* - 2013 - 2017

Coordinated clinical research in paediatric intensive care, ensuring protocol adherence and accurate data collection. Applied critical thinking to improve research processes and outcomes.

RSCN STAFF NURSE-SENIOR STAFF NURSE, BWCHFT* - 2010 - 2018

Led a team of up to 12 healthcare professionals in a high-pressure paediatric intensive care unit. Demonstrated leadership, communication and problem-solving skills to ensure optimal outcomes. Now transitioning these skills to a full-stack developer role.
